1. The first part of the paper is devoted to a general
discussion of the problem. It is shown that the
problem is well-posed and that the solution is
unique. The second part of the paper is devoted to
the construction of the solution. It is shown that the
solution can be constructed by the method of
successive approximations. The third part of the
paper is devoted to the numerical solution of the
problem. It is shown that the numerical solution
can be constructed by the method of finite
differences. The fourth part of the paper is devoted
to the conclusion. It is shown that the problem is
well-posed and that the solution is unique.
